

12 FAH-8 H-250 PROGRAM CHANGES AND OTHER CONSIDERATIONS

(TL:RSP-01; 11-01-2001)

12 FAH-8 H-251 GUIDELINES FOR REQUESTS FOR CHANGES

(TL:RSP-01; 11-01-2001)

- a. Changes are required for several reasons:
 - (1) A change in the threat rating as published in the SETL;
 - (2) A rapid change, either temporary or permanently, occurs in the post's threat environment;
 - (3) A specific threat to an individual or his/her dwelling place;
 - (4) A substantial administrative change in the post's housing program, i.e., going from GFQ to LQA or vice versa; and
 - (5) A large increase or decrease in the number of direct-hire employees and/or the types of housing units needed for employees.
- b. If a post believes that a change in the level of protection different from that required by the threat rating is necessary, the EAC and chief of mission (COM) must approve the proposed changes in the level of protection and endorse the justification for such changes. In addition to having approval by the EAC and COM, such proposed changes should include an estimate of budgetary costs and impacts. The proposed changes, with justifications and estimates, are then communicated to DS/CIS/PSP/FPD by the RSO and/or PSO for approval and funding.
- c. When a post believes that a change in the RSP is required immediately, the post should make the change, but also immediately notify DS/CIS/PSP/FPD. The post should include the specific details that mandated the change, the post's actions and program changes, and an estimate of the costs that will result from those changes.
